

Jan 21st 2025(Tue) CLZ Exchange (G7-8)

Today, first and second year junior high school students from our school interacted with students from the Zeist school who visited our school.

First, the students were greeted and then held a welcome party and were shown around the school. Next, they were split into four groups, and each group took turns experiencing the following activities: making hand-rolled sushi, calligraphy, Japanese drumming, and Japanese language classes, deepening their interactions. The students seemed nervous at first, but they worked well together and tried hard to explain and manage the experiences they were in charge of. By the time of the final farewell ceremony, there were many smiles on the ground.

歓迎会
